SUMMARY

I am a 6th-semester student majoring in Informatics Engineering at Trilogi University. I have been involved in innovative projects using Python, JavaScript, HTML, and CSS. My focus is on web development, with a special interest in Front-End Development. I possess problem-solving and analytical skills gained during my studies, along with good communication and collaboration abilities.

EXPERIENCE

PT Padma Soode Indonesia – Bekasi, Indonesia
Internship Student (January 2020 – March 2020)
- Maintained the condition of internet networks facing issues in the System Division - Technical Support Department.
- Played a role in installing Windows in the System Division.
- Contributed to data entry for the needs of the System Division.
